

INDIGO Ice Machine

by  **Manitowoc**
in Peoria, IL

Intelligent Diagnostics

Constant monitoring of refrigeration and sub-system controls means that when issues arise they are immediately noted and can be addressed.

Easy Read Display

The easy-to-read display panel offers staff prompts for things like adding sanitizer or checking the water or air filter.

Active Clean

Manitowoc raises the cleaning standard by not only designing our equipment to be easier to clean but we also offer several key technologies to help inhibit slime growth, lime deposits, and mineral scale.

Ice Assurance

Manitowoc's revolutionary acoustical ice-sensing technology accurately measures ice thickness for consistent cube formation and operates in challenging water conditions.

Energy Management

Customizable ice making schedule allows for fluctuations in daily levels of production, saving energy by making only the amount of ice you need, when you need it.

Service and Support

Manitowoc's Indigo series gathers information 24 hours a day. This collection of real-time data enables a quick and accurate diagnosis of any problem.

Electrical and Refrigeration Sequences of Operation
Flow Chart Diagnostics for the Indigo Series

Pre-Requisite - Prior to seminar attendance please review the Install Use & Care Manuals and Online Training (www.manitowoc.com) for the models listed above. The seminar does not include this information due to time limitations. All Manitowoc CSR's and dealers offering warranty work must attend training annually. Failure to do so will result in termination of CSR arrangement of processing of warranty claims. Cancellations must be received 24 hours in advance of session and in writing to the Marketing Office for a refund. No shows will not be eligible for a refund.
