### SECTION 2: HAZARDS IDENTIFICATION

**Permissible Exposure Limits:** Not established for this product.

**Effects of Acute Overexposure:**

**Eyes:** May cause irritation.

**Skin:** May cause slight.

**Breathing:** May cause light headiness or dizziness.

**Swallowing:** May cause nausea.

**Primary Route(s) of Entry:** Skin contact, eye contact, ingestion and inhalation.

### SECTION 3: FIRST AID MEASURES

**EYES:** Immediately remove individual from exposure area into fresh air. Flush eyes with water for at least 15 minutes while holding eyelids apart. Seek immediate medical attention.

**SKIN:** Remove contaminated clothing. Wash exposed area with large amounts of soap and water. If irritation persists or open sores develop, get immediate medical attention.

**BREATHING:** If affected, remove individual to fresh air. If breathing is difficult, administer oxygen (if you have been trained in its use). If breathing has stopped, give artificial respiration. Keep person warm, quiet and get immediate medical attention. If possible do not leave person unattended.

**SWALLOWING:** Drink large quantity of water. In all instances, seek immediate medical attention.

### SECTION 4: FIRE FIGHTING MEASURES

**Flash Point:** None.

**Explosive Limit:** Not Established for product.

**Extinguishing Media:** Foam, CO<sub>2</sub>, Dry Chemical, Halon.

**Hazardous Decomposition Products:** Open flames can cause hydrogen chloride, phosgene, chlorine.

**Fire Fighting Procedures:** Wear Self Contained Breathing Apparatus with a full-face piece operated in a positive pressure demand mode with full body protective clothing when fire fighting.

**Special Fire and Explosion Hazards:** Exposure to temperatures over 120 degrees F. May cause bursting or venting. Heat or fire may cause hazardous fumes: Carbon Monoxide.

### SECTION 5: ACCIDENTAL RELEASE MEASURES

**Procedures for cleanup:** Ventilate area. Avoid breathing vapors. Wear appropriate protective clothing. Use inert absorbent material to soak up spill. Keep out of water supply. Follow Local, State, and Federal regulations for proper disposal.

### SECTION 6: HANDLING AND STORAGE

Minimize temperature extremes. Keep containers closed when not in use. Keep away from direct sunlight.

### SECTION 7: EXPOSURE CONTROLS / PERSONAL PROTECTION

**Respiratory Protection:** Not required under normal conditions of use; however, if sprayed or used in confined areas, a NIOSH / MSHA approved respirator may be advised in absence of proper environmental control. OSHA regulations also permit other NIOSH / MSHA respirators under specified conditions -- see 29 CFR 1910.134 or your safety equipment supplier. Engineering and/or administrative controls should be implemented to reduce exposure.

**Ventilation:** Provide sufficient mechanical ventilation (general and/or local exhaust) to maintain exposure below recommended exposure limits.

**Protective Gloves:** Wear chemical resistant gloves such as neoprene or rubber. Contact your safety equipment supplier.

**Eye Protection:** Chemical splash goggles and a face shield to prevent splash on to the face, in compliance with OSHA regulations, are advised.

**Other Protective Equipment:** To prevent repeated or prolonged skin contact, wear impervious clothing and boots.
