

Fasco Catalog Correction: See the Revised D1127 Motor on Page 23

D1127

In the most recent printing of our *Fasco Stock Replacements Products Catalog 45*, the revised D1127 motor we reintroduced you to last July was inadvertently left out of the Alphanumeric Index in the front of the book. Please make a note in your catalog that the D1127 may be found on page 23.

The technical specifications for the D1127 on page 23 also list it as a 1/12 HP motor. But remember, the D1127 is a multi-horsepower motor for Heatcraft Refrigeration products that replaces 3 different horsepowers: 1/12, 1/15 and 1/20. This new version also features reversing leads, plus a larger separate wiring diagram to make installation easier.

KIT155 Update

In the March issue of the *Fasco Rewards Distributor Newsletter*, we introduced you to our new Eyelet/Grommet KIT155, but were unable to show a picture of the 12 eyelets and grommets it contains. Those are now shown here.

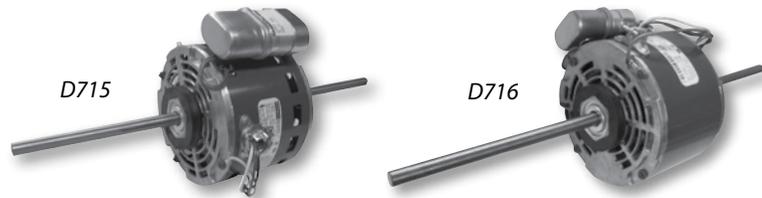

New Product News

Fasco Introduces Two New General Replacement Motors

Fasco is proud to introduce the new D715 and D716 general-purpose replacement motors. These 5.6 diameter, Permanent Split Capacitor (PSC) motors feature an open ventilated design, and like all our motors, are thermally protected, UL recognized and CSA certified. Technical specifications are shown below.

These two motors complement the existing line of Fasco products that continue to help contractors get the job done properly with the right motor for each individual application. Please see pages 35 and 46 of the Fasco catalog for our full line of similar motors. If you have any questions, please contact your Fasco Sales Representative or call our Customer Service Department at 1-800-325-8313.

Specifications

MODEL #	HP	Volts	RPM	Amps	ROT	STD	BRNG	"A" Dim.
D715	1/8	208-230	1500	1.4	DS	2	SLV	4
D716	1/4	208-230	1625	1.65	DS	2	SLV	3-3/4

New Life-Line™ Energy Saver Plus Motors Now Available

Fasco is pleased to announce that new Energy Saver Plus Motors from our GE Commercial Motors Life-Line brand are now available in 460V and 277/230V ratings.

Designed for continuous air over applications (such as furnace blowers or central air handling units with single shaft requirements), Energy Saver Plus direct drive motors offer 65% minimum efficiency in 20 different ratings. They also feature durable ball bearing construction (3463/3464 Sleeve), reversible rotation with reversing plugs, all-angle mounting positions, extended thru bolts on both ends, cushion ring mounting options and more.

Congratulations to the Latest Gift Card Recipients in the New Fasco Rewards Program

Congratulations to the following Fasco Rewards Program participants who will receive \$100, \$75 or \$50 gift cards from our February Test drawing! Take the Fasco Rewards Test this month, and your name may be listed in the next issue!

- John Beckett
- Carol Biggs
- David Bochenek
- Lucy Bowen
- Thomas Cannon
- David Drew
- Michael Evanicki Jr.
- Beverly Gehring
- Chris Harrington
- Art Hermsmeier
- Jary Howley
- Greg Johnson
- Bob Levene
- Butch Margeson
- Cooky Parker
- Mike Proffer
- Douglas Schleisman
- Chris Shroeder
- Jim Shroeder
- Matthew Wayne Ward
- Lenny Wrubleski

PLEASE NOTE:
All gift cards need to be used within 12 months.

Answers to February 2011 Fasco Rewards Test

1. C – Rochester, New York
2. D – 12
3. A – True
4. A – 480

Know Your (Morrill) Motors

In the March issue of the *Fasco Rewards Distributor Newsletter*, we introduced you to the ARKTIC SSC² ECM Motor by Morrill – one of the most efficient electronically commutated motors currently available.

While the overall technical specifications for some of these models appear to be the same (see page 134 of the new Fasco *Stock Replacements Products Catalog 45*), here are some important distinctions between model numbers that you should take into consideration when ordering:

12 Watt/115V

- 5R016 – Motor only with mounting bosses, all angle mount
- 5R024 – Motor with fan/shroud attached, vertical or horizontal mount only
- 5R025 – Motor only with mounting bosses, vertical or horizontal mount only

38 Watt/115V

- 5R017 – Motor only with mounting bosses, all angle mount
- 5R022 – Motor with mounting bosses and bracket, all angle mount

38 Watt/208-230V

- 5R018 – Motor only with mounting bosses, all angle mount
- 5R023 – Motor with mounting bosses and bracket, all angle mount

Others shown

- 5R020, 5R021, 5R019 – Motor only with mounting bosses, all angle mount

ARKTIC SSC² ECM Motor
