

SANUVOX

Saber PRO Wireless 24V Ultraviolet Coil Treatment

- Sanuvox Saber PRO Wireless UV system employs a powerful 16" UVC Lamp designed to destroy & prevent mold, bio-film & other microbial contamination from growing on and around the evaporator coil.
- Wireless LCD display can be positioned away from the UV Lamp system. The wireless LCD provides "Real-Time" system status including sterilizing 'ON', Days Left & UV Lamp Out.
- Everything is included for wireless operation. The 24V ballast communicates wirelessly with the LCD display.
- 24V ballast includes a system status LED notification.
110V step-down transformer available separately.
- Magnetic Multi-Bracket allows for multiple UV Lamp positioning and installation scenarios.
- Sanuvox quality & design.
- Warranty: UV Lamp/LCD, 1 year.
Ballast, 5 years.

On purchases of 60+ units, *no-charge LCD customization with scrolling contractor name and phone number.
