

Contractor Success with HAVEN

Breathe Better

Build trust, retain customers, and enable sales solutions with HAVEN through the Pro Web Portal.

The HAVEN Pro Web Portal allows visitless customer management, and diagnosis of air quality issues through proven data - no IAQ expertise required!

Seeing the evidence that equipment upgrades are needed can enable higher-ticket sales and a more receptive customer relationship.

Use the HAVEN Home Air Report feature to show homeowners their data, and recommend effective solutions.

1 Install HAVEN

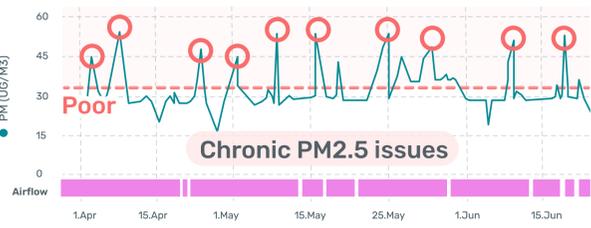

DAY 1
Installation of HAVEN

2 Share diagnostic report with Homeowner

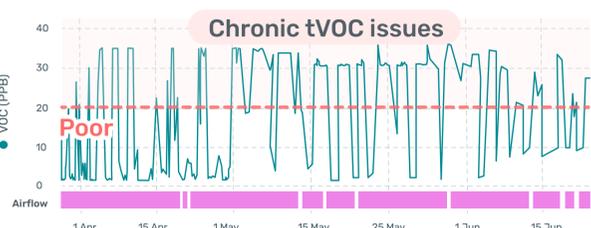

14 - 30 DAYS
from Install

PM

This home shows elevated levels of PM2.5 - **Particulate Matter**, which is especially harmful to health. Recommend improved or upgraded filtration to help bring this under control.

VOC

Volatile Organic Compound are harmful airborne chemicals emitted by many man-made products. Forced ventilation equipment helps to reduce your customers' concentrations for a healthier home.

RH

Relative Humidity within a home should remain within 30-60% (EPA). Outside of this threshold mold, bacteria, and structural damage can result.

3 Install Solution

1 MONTH
Install equipment solution

PM

Install a higher MERV Filter, HEPA Filter Kit or Media Air Cleaner to remove particulates from the home's air.

Possible Solutions

VOC

A Powered Ventilator, whole-home air purifier, ERV, or HRV are ideal for homes with high VOCs. Dilution is the solution!

Possible Solutions

RH

Recommending whole-home de/humidification solutions will help to keep levels within the ideal threshold for your homeowner.

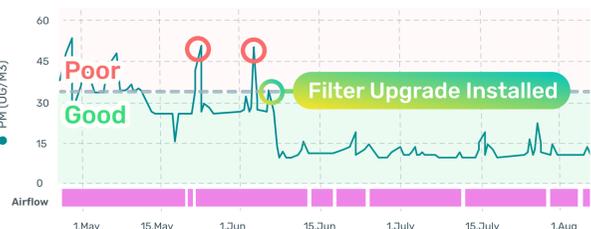

Possible Solutions

4 Show the data difference with a HAVEN Home Air Report

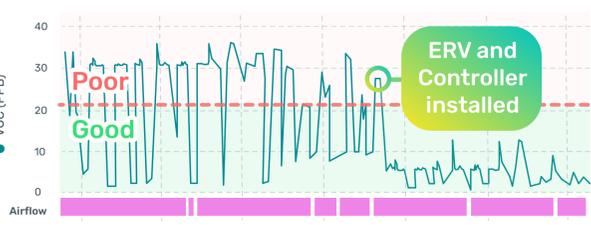

6 WEEKS
Equipment Validation

PM

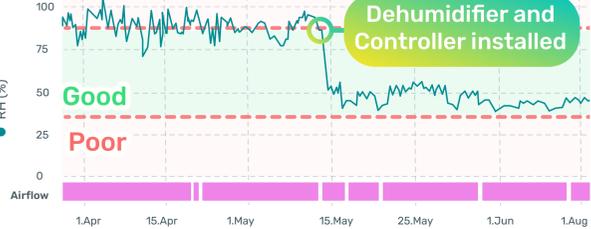

Prove that **Particulate Matter** levels have fallen post-install to build trust and customer satisfaction.

VOC

Verify that VOC spikes are resolved quickly by the new equipment to improve customer relationships and long-term retention.

RH

Reading the results from pre- and post-install gives your customer confidence that they made the right call, and fosters a continued relationship with you - their trusted contractor.
