

# NEW GAUGE COMBINATIONS

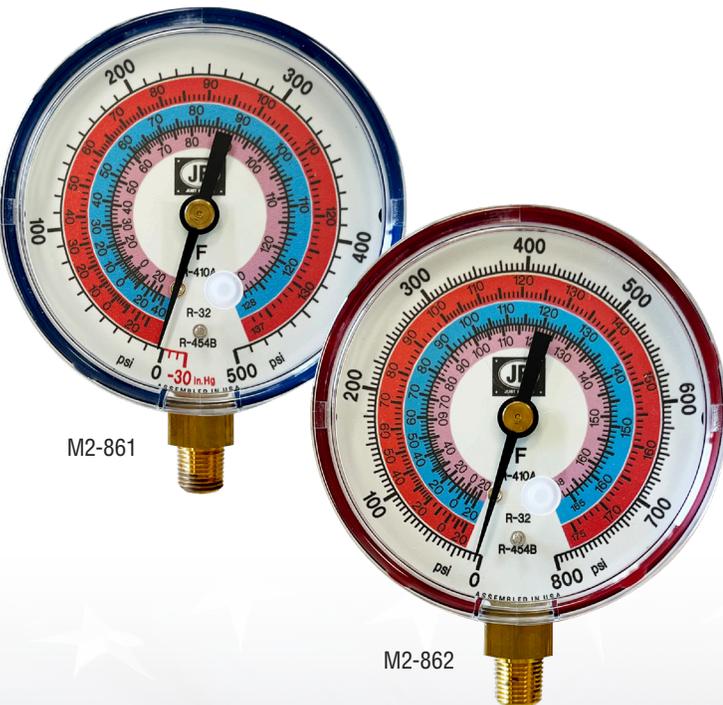

NEW

## JB INDUSTRIES high quality gauges now come in even more refrigerant combinations!

The all-metal gauges feature a high impact clear view Lexan lens, full-size brass movements, and recalibrating screw.

Available for compound and pressure in assorted options including a combination of A2L refrigerants, R32 and R454B, with 410A, so whether you're working on new systems or old, JB has you covered.

These gauges are available individually or with the PATRIOT 2-Valve Brass Manifold and a 60" KOBRA Hose set.
